Since updates to sampling status is on a daily basis please keep Colleen informed of the status. If we want ESAT to log in the samples they will need to know as soon as we find out so they can prepare for workload impacts. I'm not sure we want to "split" the log in duties so I'll let you decide if you want to take this on versus having ESAT log them in.

**Subject:** Dimock site support

This message is to give ESAT a heads-up for a considerable number of samples that will be arriving for ESAT sample log-in support. The LB will provide some assistance/support for the Dimock site. I will ask the LB to include someone from ESAT in the discussions for handling and processing the samples. I am not certain at this time if any ESAT analytical support will be required. As soon as I am made aware, I will let ESAT know. Kevin Martin is the contact for the Sample log-in/processing. This is a high priority and highly visible site. Samples may begin to arrive before the end of the week.

Thanks!!!!!!!!!!!!
